Financial Performance (p.16)

Outlook (p.27)

Appendix (p.33)

Leading industrial elastomer specialist with diversified product portfolio

Semperit is a global pioneer in the production of high-quality elastomer applications for industrial clients with a 200 years' history.

We are constantly expanding our global footprint – with technologically sophisticated innovations that keep the world of our customers running.

OUR VISION:

Addressing global challenges through sophisticated elastomer applications

IMPORTANT MEGATRENDS

Climate change | Demographics | Urbanisation | Mobility | Electrification

Leading market position

Among the world's leading industrial players with our elastomer products

Market leading brands, customer-focused approach and a globally diversified sales network

Technological edge

Strong track record in synthetic and natural rubber applications complemented by new expansion into liquid silicon rubber

Technological lead based on continuous innovation and customer centricity

Resilient business model

Diversified portfolio serving a broad customer base in numerous industries

Streamlined organisation with two separate divisions applying cost leadership with a particular focus on customised technical solutions

Strong industrial platform

Powerful set-up based on local knowledge and global powerhouse

Industrial customer solutions and drive for operational excellence at all levels to remain competitive

Lean management

OUR MISSION:

A global leader with advanced and sustainable elastomer materials and solutions

Strategic focus: profitable growth, customer intimacy and technology leadership

New **divisional structure** evolves around Semperit's **two main business models** and serves as **ideal platform for focused organic and inorganic growth** – while **reducing complexity** and **enabling to scale up business**

Semperit Industrial Applications

Cost leadership to harvest volume business

- **Cost leadership**
- Process and product **innovation**
- Mostly **standardised high-performance products**
- **Lower complexity** in product portfolio
- **Qualified** sales team & high level of sales **excellence**
- High degree of **unification** of products, processes and equipment across our factories

Semperit Engineered Applications

Attractive niche specialisation

- **Leveraging on know-how and engineered technology**
- Focus on **attractive niche markets**
- Strong **focus on customer**
- High level of **customisation**
- **Standardised** innovation & R&D process, reliable & plannable time to market
- **Qualified** sales team & application engineering
- **Project- & tender** business

Strategic focus for Semperit Industrial Applications

HOSES – Cost leadership and enlargement of product range

DH5 investment: Capacity expansion in Odry/CZ will strengthen Semperit's position as one of the global market leaders for hydraulic hoses.

Cost leadership – set by DH5 as new efficiency benchmark and roll out to other plants

Strengthening and **enlargement of highly competitive product range** (e.g. new soft spiral hose range)

Organic growth strategy for industrial hoses focusing on product and market development for selected new applications (e.g. peristaltic pumps, concrete pumps, food etc.)

Geographic expansion in **North America**

PROFILES – Focus on Europe and US

Strengthening our position in the European construction and industrial markets

Geographic expansion in **North America**

Enlarging the customer base via sales excellence and customer intimacy

Focus on **cost and complexity reduction**

Recycling: Development of EPDM profiles with a portion of reclaimed materials

Strategic focus for Semperit Engineered Applications

BELTING – Levering on existing capacity

Surpassing the expected global market growth by using existing capacity

Coherent product strategy – heavy and medium strength steel belts and performance textile belts

- Excellent price / performance ratio
- Benchmark in technical support

Working on strategic partnerships with **international mining groups** and **increasing the market share in mining applications** (excl. lignite)

Concentration on **efficiency** and **capacity utilisation**

Geographic set-up

- Defend and further expand current growth markets

FORM – Profitable niches and optimized margins

Strong focus on growth with **new Product-Market-Combinations** (PMC's) which are **highly margin accretive**

Portfolio streamlining to boost margins

Extension of end-to-end application know how to grow with **customised product/market strategies**

Playing the niche (market wise) supported by **economy of scale** (operations wise) using an increased level of automation and streamlined costs

Geographic focus on growth markets in Europe and expansion into Americas and APAC

RICO – Platform for organic and inorganic growth

Expansion in Thalheim (Austria) recently completed (incl. 3 production facilities, high-bay warehouse, handling areas and additional office space on an area of more than 10,000 sqm)

Planning production expansion in **US** and **Switzerland**

Considering smaller add-on acquisitions to exploit market growth (market for silicone products in Western Europe and the USA to grow by around 7% p.a. until 2027) and leverage tooling expertise

Geographic expansion US and APAC

2023: Semperit delivered as promised Setting the stage for a new growth platform

Liquid Silicone Rubber (LSR) – strengthening of technological leadership and leveraging on substantial market growth

Capacity extension at Rico in Thalheim underpins our technological lead in injection molding tools and automation

- Acquisition of Rico allows **complementary offering with high performance advanced materials** focusing on liquid silicone rubber (LSR)
- **Investment of around EUR 40m** in plant and capacity expansion by 2028
- Smaller add-on acquisitions to **exploit substantial market growth for silicone products** in Western Europe and the USA (expected CAGR of ~7% p.a. until 2027) and leverage tooling expertise

Hoses – EUR 100m investment in Europe's largest hose production

Growth investment to strengthen our position and competitiveness as one of the top global players for hoses

- **Capacity extension** by 24 million meters p.a. plus 3.6 million meters (relocation) up to 135 million meters p.a. in Odry resp. up to 190 million meters overall hoses production
- **Ramp up** of new production facilities in stages beginning in 2025 – **full capacity in 2030**
- **Total investment** of around **EUR 100m**
- **Benefits** include higher efficiency in supply chains and deliveries, reduced emissions and lower transport costs
- **Focus on a high degree of automation and sustainability**

Agenda

Key Highlights & Strategy (p.2)

Operational Performance (p.11)

Financial Performance (p.16)

Outlook (p.27)

Appendix (p.33)

Divisional developments of revenues along two very different success factors

Divisional structure evolves around Semperit's **two main business models**

Semperit Industrial Applications

Semperit Engineered Applications

Surgical Operations

Semperit Industrial Applications 2023

High cyclicity of commodity business

2023 vs. 2022

- Hoses: restrained customer behavior based on low market demand and weakness in short-cycle business
- Profiles: impact from weak construction industry with continuing low but stable level and low backlog
- Annual sales down by 27% and EBITDA by 47% as volumes were down
- End of destocking effects but headwinds of slower economic growth
- Focus on efficient and agile organization, customer intimacy and economies of scale – overhead cost measures effective

Semperit Engineered Applications 2023

Tailwinds from mining, lower raw materials prices and RICO contribution

Semperit Engineered Applications

2023 vs. 2022

- Belting: ongoing late-cycle demand in mining with supportive pricing and ongoing solid demand
- Form: sales and profits particularly encouraging in mountain applications, solid after-sales handrail business
- Rico: sales contribution of EUR 37.2m since August 2023 and EBITDA of EUR 7.6m based on strong demand in the areas of health systems, food products and mobility
- Annual sales up by 24% and EBITDA by 36% as prices remained high and portfolio optimization supported margins

¹ EBITDA and EBITDA margin Q3 2023 and Q4 2023 adjusted by EUR 4.1m and EUR 2.3m respectively, for one off effects related to the acquisition of the Rico Group

ESG achievements 2023

Key focus points in 2023

- Competitive ESG rating year:**

- **EcoVadis Platinum**

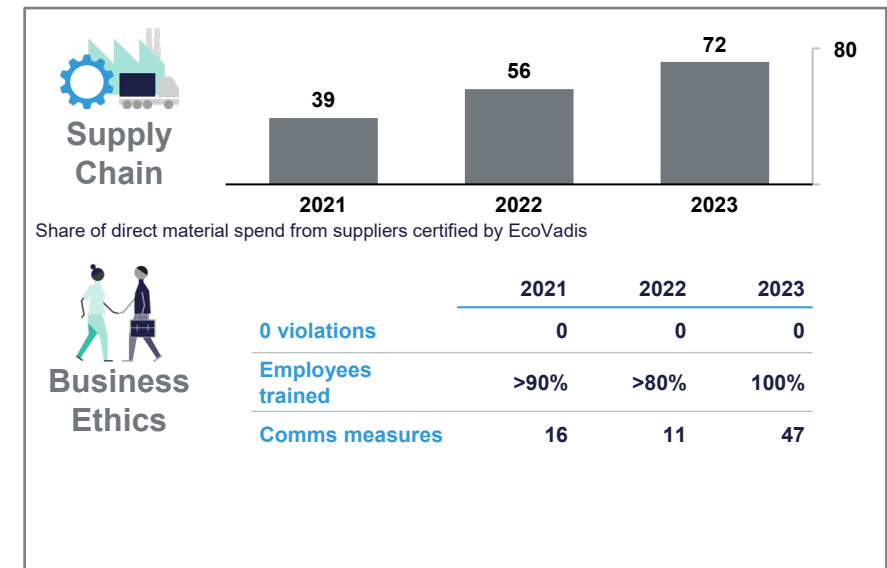

- **CDP Climate C, Forest C, Water D** (first time disclosing, rating is private)

- Climate scenario analysis** as an important building block of EU Taxonomy and ESRS

- Amended strategy** with additional focus on D&I

Financial highlights 2023

New financial arrangements since Q1'2023 based on strategic priorities of industrial transformation

Financing line extended to **EUR 360m**

Lean management and structural cost savings to support operating leverage
-Original annual run-rate target of 10m exceeded

EUR 5.8m of overhead reduction already achieved

Main focus on free cashflow for growth investments, dividends

EUR 111.5m after sale of examination gloves business

Strong balance sheet structure

Financial net debt at **EUR 115.2m** and net debt/EBITDA at **1.6x**

Base dividend at EUR 1.50 per share and additional dividend of EUR 3.00 after sale of Sempermed

EUR 92.6m dividends in total paid

Detail on Last Twelve Month (LTM) view

Industrial Sector – development of LTM Revenue (EUR m) and EBITDA margin (%)

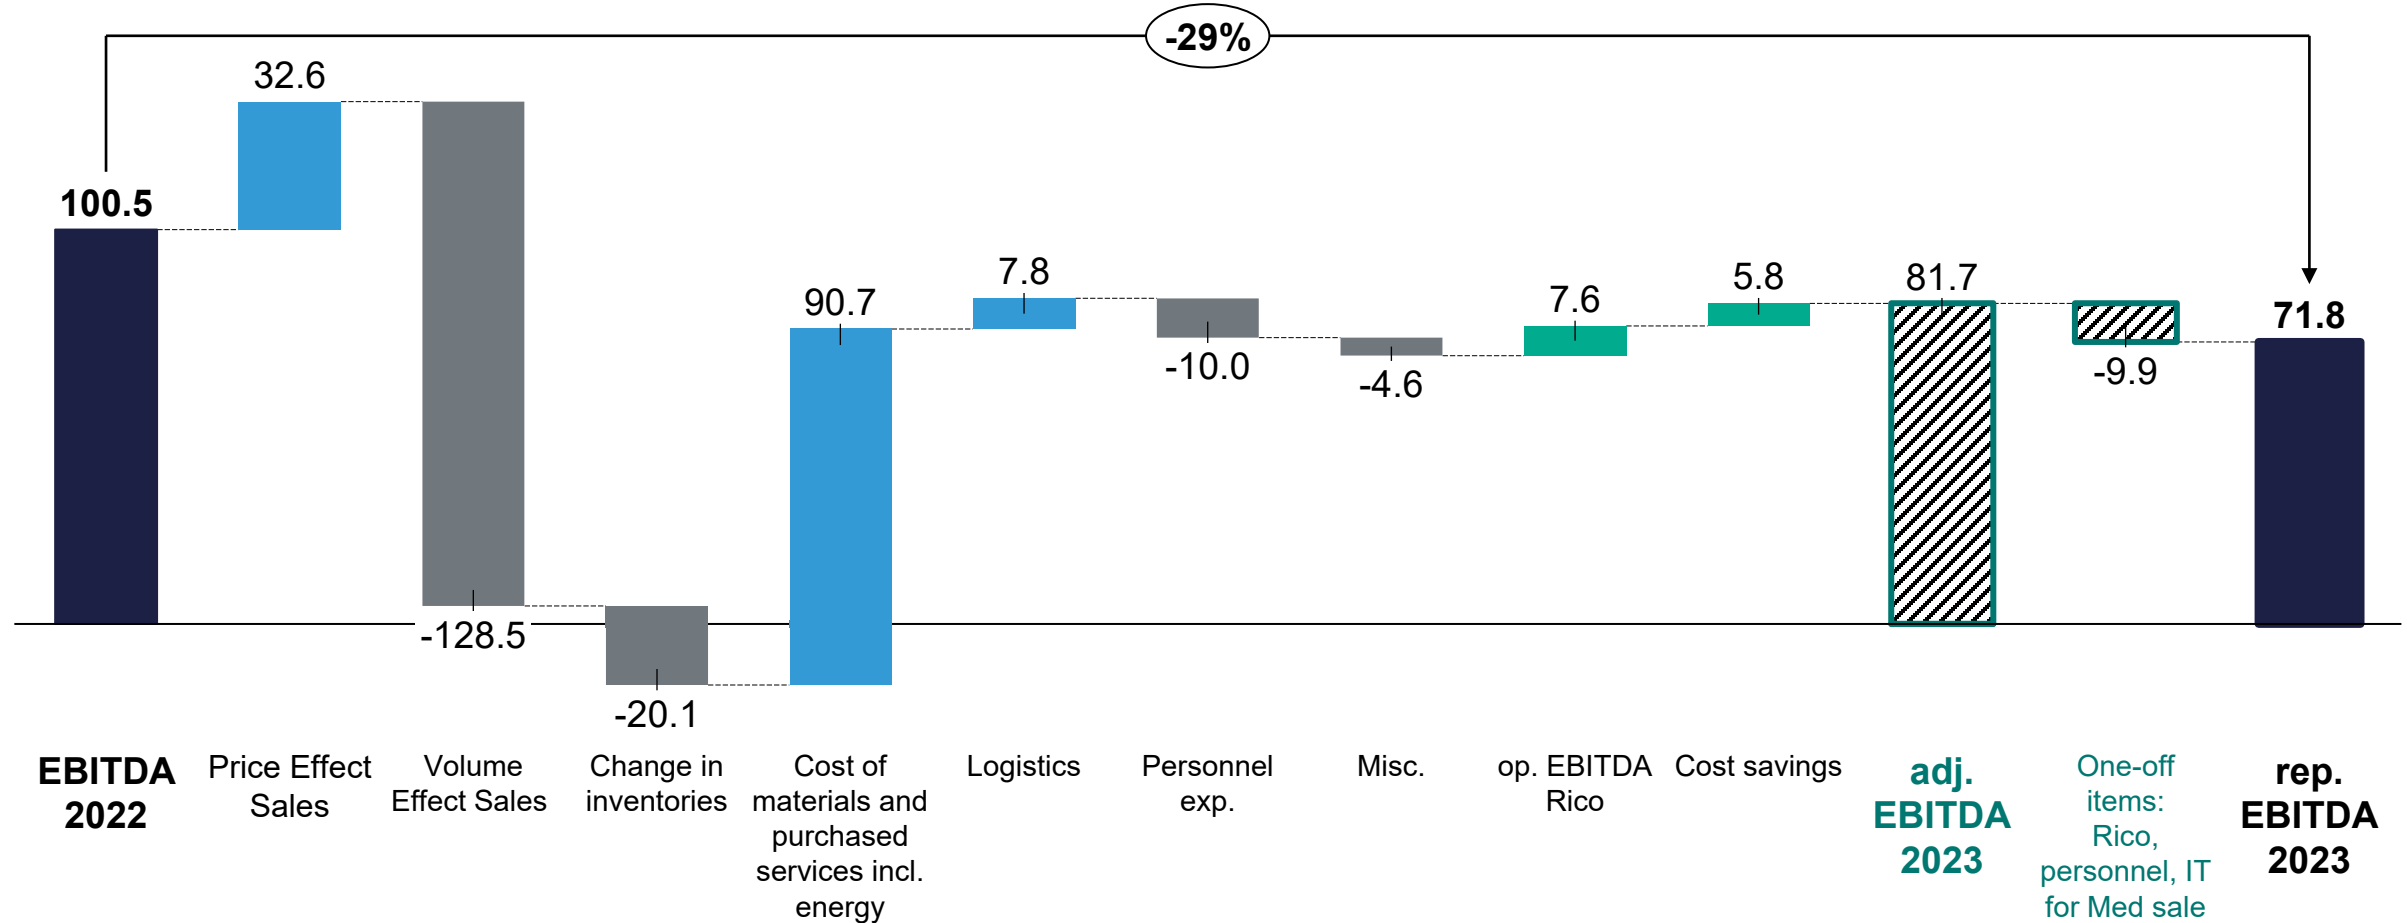

- Cyclical downturn since Q1'2023 combined with inventory digestion - destocking effect most notable in 2022-23
- Volumes in decline while prices are stable, margins supported by lower raw materials and energy prices
- Q4'2023 partly impacted by seasonality, planned downtime during the winter period and cost savings
- Further focus on agile and slim organization, cash generation and strong balance sheet

■ LTM Revenue in EUR m — LTM EBITDA margin in %

Major drivers of operating performance – main building blocks of EBITDA-bridge

in EUR m

Rico effects shown separately, thus price and volume effects of sales, change in inventories, cost of materials, logistics, personnel expenditures, misc. and cost savings do not include Rico-figures

Working Capital overview

Components of Working Capital¹

in EUR m

Trade Working Capital in % of LTM revenues;

¹ Since 31 December 2022 without Sempermed (examination operations); as of 30 September 2023 including Rico for five months

CAPEX development 2021-2023

2023 strategic growth CAPEX at EUR 184.2m:

EUR 164.8m
for Rico acquisition

EUR 19.4m
for organic growth

- by optimizing the phasing of capacity expansion DH5 (Odry, CZ)
- and expansion project Rico (Thalheim, AT)

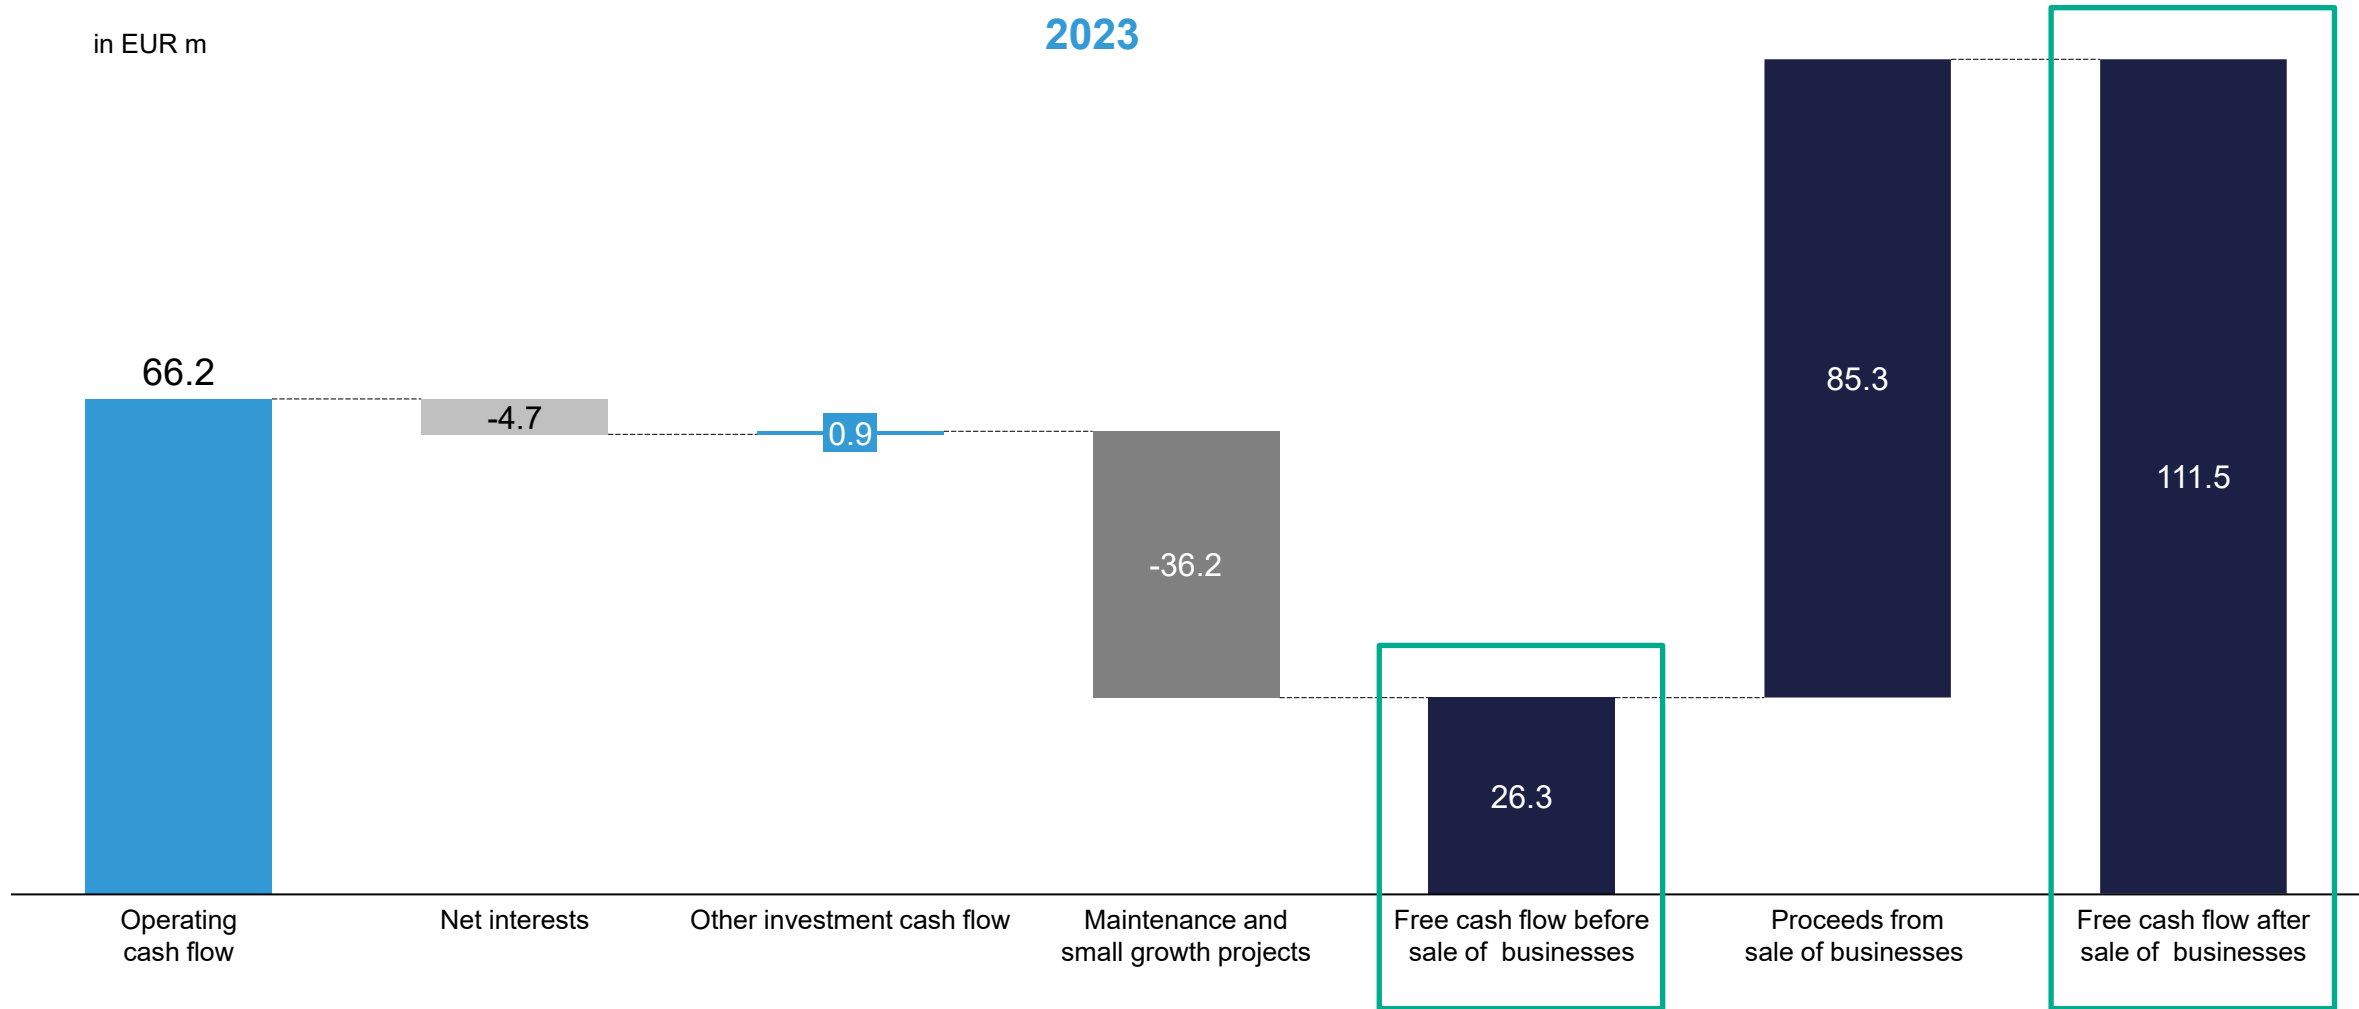

¹ 2021 and 2022 included each EUR 17mn CAPEX of the discontinued operations for the production line P7+ in Kamunting, Malaysia

Free cash flow before strategic growth investment

in EUR m

2023

Financial Net Debt Development 2023

- Improved operating cash flow generation on the back of proactive working capital management
- Proceeds from company disposals are major driving force of higher FCF in 2023
- Higher FCF were used for acquisition of Rico Group, strategic growth investments (DH5, Rico) and dividends

Robust balance sheet structure and financial profile

Balance sheet structure

Balance sheet 31/12/2023: EUR 938m
 Balance sheet 31/12/2022: EUR 843m

Financial profile as of 31 December 2023

- **Cash and cash equivalents** at EUR 113m
- **New financing of EUR 360m** arranged – EUR 33m already used for Odry DH5 extension and EUR 110m line used for Rico acquisition by end of December
- **Financial liabilities** at EUR 228m, have now increased due to new financing arrangements and RICO integration
- **Net financial debt** at EUR -115m from net cash at YE'22 (EUR 54m)
- **Equity ratio** of 45.3% (YE'22: 61.5%)

Agenda

Key Highlights & Strategy (p.2)

Operational Performance (p.11)

Financial Performance (p.16)

Outlook (p.27)

Appendix (p.33)

- Current cyclical downturn impacts commodity business (SIA) harder due to weak construction- and yellow goods industries
- Diversified markets with different dynamics for SEA – thus more resilient and stable with focus on technology and industrial solutions (e.g. mountain applications, mobility, healthcare)
- Challenging market conditions with first green shoots expected towards the end of 2024 at earliest

- Focus on industrial strategy with profitable growth, customer intimacy and technological leadership
- Distinctive industrial focus on two competitive business models
- Managing the downturn through share of wallet gains and cost programme
- Simplification, lean management and operational efficiency
- Setting up future growth platform for technical solutions and cost leadership

2024: EBITDA expected at
~EUR 80m

2024: CAPEX expected at
~EUR 70m

40% growth – 60% maintenance and small growth projects

Dividend proposal to the AGM
~EUR 0.50 per share

Five reasons to invest in Semperit

- ▲ 1 Leading market position in elastomer applications with strong industrial base
- ▲ 2 Relentless focus on innovation and technology
- ▲ 3 Resilient business model driven by operating leverage and cost leadership
- ▲ 4 Strong balance sheet and cash generation capacity
- ▲ 5 Value play with recalibrated platform for future growth
